Product fact sheet

LILLE — BY ANNE DORTHE VESTER

Lille – considered softness in light and form. A compact, subtle, yet distinctive design shaped by the interaction of light and form. Light is directed with precision, while a softer glow filters through the details. Available as pendant or wall piece. In each form, the light is directed — either downward or reflected against the wall. The colours, from raw aluminium to vibrant green, highlight the sculptural presence. A layered form. A quiet atmosphere. From every angle, new aspects emerge.

Anne Dorthe Vester is a Danish architect and designer known for her focus on materiality, craftsmanship, and the intersection of design and fine art. In her practice, she continuously seeks interdisciplinary collaborations and believes that compelling work takes shape through encounters. Her minimalist and tactile design approach has a deep connection to exploration of material and Danish design traditions.

PRODUCT SPECIFICATIONS

DESIGNER:	ANNE DORTHE VESTER, 2025
TYPE:	WALL
DIMENSIONS:	D:7.09" H: 7.09" W:3.66"
MATERIAL:	ALUMINIUM
MOUNTING:	FIXED INSTALLATION
SOCKET:	E26
MAX EFFECT:	1*7 W
CLASS:	II
IP:	IP20
CERTIFICATION:	UL/ETL certified
