Lighting

Suspension
lamps

Description

The Slim Skin collection consists of a vertical suspension, a horizontal suspension, and a wall version. All of them have a diameter of 12 cm and are available in two different lengths: 70 cm and 140 cm. Slim Skin is composed of a glass cylinder (available in opal white or ribbed clear glass) coated with a metal mesh in brass or black finish. The metal mesh creates a moiré effect which avoids any glare and provides great visual comfort.
