Description

Solid Outdoor is the exterior version of the Solid collection. Its tubular design incorporates a light source conceived to remain visually discreet during the day and to stand out at night with a striking darklight effect, illuminating the space in a unique way. Solid Outdoor is available as a suspension luminaire (Solid Outdoor SH), two upright floor versions (Solid Outdoor F A and F B), an angled floor version (Solid Outdoor Angle), an angled bollard (Solid Outdoor Bollard), and a wall light (Solid Outdoor W). It comes in various heights and in black, corten, and desert grey finishes.
