Suspension
Lamps

Description

Suspension lamp system available with different sizes of shade. The S shade is made with a textured matte white or black exterior, combined with a satin copper or brass shade interior. It is also available with a brass interior and exterior finish. The multiple fixture lamps (S2, S3, S4, and S6) are only sold in a surface version and the flat canopies are always white or black. Speers lamps are equipped with a high-luminance LED light source. They include a glass lens that focuses the light and enhances its luminous efficiency. There is an optional opal diffuser providing general diffused lighting.
