TR10 Series

tomrossau.com

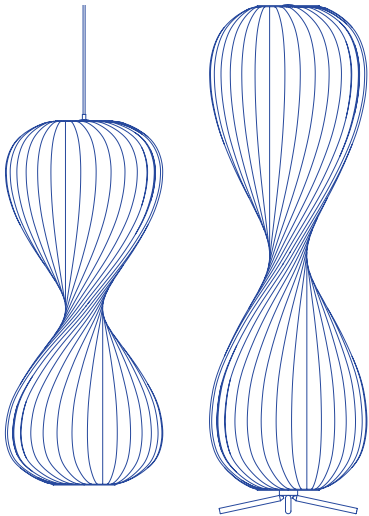

Description

The TR10 is a larger and more voluptuous version of the TR7. With the iconic hourglass shape, it is a lamp that speaks to our aesthetic sense.

The shade of the TR10 conceals the light sources and provides a soft, diffused light. A small amount of direct light is allowed to pass through an opening at the top and at the base.

The TR10 has sculpture and presence, and provides style, even when unlit.
